Install Your New Seat

(If you have purchased a heated Ultimate Seat, please follow steps 1 to 5, if not, please skip to 6).

1. Remove right side cover and remove plug in figure 1.
2. Plug supplied jumper into bike plug in figure 2.
3. Route jumper under frame and on top of battery box figure 3.
4. Reinstall right side cover.
5. Plug Ultimate Seat into jumper.
6. Install your Ultimate seat now, make sure you have the front locating bracket on the seat nose located properly in the bike frame under the tank and install the stock screw in the rear bracket on the seat and fasten correctly.

Remove/Install sissy bar pad (optional)

Remove the 3 screws holding the stock pad and remove, store the pad and the plastic spacers.

Install the Ultimate pad using the 3 supplied stainless spacers and install with the stock screws, if they are not long enough use the new supplied screws.
