

# Ultimate Seats VTX 1800 N – NEO

## SEAT INSTALLATION

Mounting hardware included;

### One 6 mm x 20 mm bolt and washer

1. Remove the stock seats.
2. Remove the bolt from the center of the rear fender (10 mm socket)
3. Place the new passenger seat on the fender and line up the threaded hole in the fender with the passenger seat front bracket hole and install the new supplied bolt.
4. Replace the stock bolt into the rear seat bracket.
5. Install the rider seat exactly like stock using the 2 stock bolts on each side (6mm hex key)
