One pc seat models

Harley Road King

Street Glide

Electra Glide/Ultra/Road Glide

Tri-Glide

Honda VT-1300

Vulcan 900 Classic and Custom

Victory Cross Roads/Country/Hardball

Indian Challenger

Your new Ride-on rain covers will protect your Ultimate seats from the elements. Use them for rain and sun protection and your seats will look like new for years. Our seat rain covers are made using the same material as “Frogg Toggs rain suits” this material is light and breathable and has welded seams.

The material has no stretch so care must be taken when installing, pull on the elastic edging not the welded seams.

Remove your rider backrest before you start installation.

The covers have a white tab to mark the front.

1. Locate the front white tab and with a hand on both sides holding the elastic slide the cover nose from side to side and down between the seat and the tank.
2. Now pull the cover back with the elastic and over the back of the seat.
3. You can now pull the sides of the cover down on each side and tuck the elastic edges under each side of the seat.

Before you fold up the covers and place them in the storage bag make sure they are completely dry.
